ECDF — M1 fixed (982c762) / run hist010-fixed
message-zero (class0) vs message-ones (class1) | n = 10000 / 10000
mean delta = -13.209 ns | MDE(alpha=0.05, power=0.80) = 28.629 ns | delta is inside MDE (not distinguishable at this budget)
x-axis clipped at the p99.5 of the two classes (full maxima: 81224 / 86703 ns);
the upper tail is not removed from any statistic
empirical CDF (fraction of samples)
elapsed time of one measured call (ns)
message-zero: n=10000 mean=57797.6 ns median=57739 ns SD=719.6 ns
message-ones: n=10000 mean=57810.8 ns median=57739 ns SD=725.5 ns
